Mayor New remarked he was informed that the proponent was clearing his land adjacent to this lease request for temporary housing. He suggested postponing the item until further research and review by the Housing Committee regarding issues and concerns raised by the public. Mayor New the committee will make their recommendations pertaining to the regulations and zoning of recreational vehicles and temporary housing. Council concurred.

Motion, to table the item until appropriate and further guidance by staff and the Housing Committee pertaining to regulations and zoning of recreational vehicles and temporary housing, was made by Councilmember Morrison and seconded by Councilmember Hirschfeld. Motion carried unanimously.

REGULAR AGENDA: PUBLIC HEARING AND COMMENT

DISCUSSION AND NO ACTION TO ISSUE REBATES OF WATER FEES

Assistant City Manager/Chief Financial Officer Michael Dane presented background information. *A copy of the presentation is part of the Permanent Supplement Record.* He noted staff recommends no action at this time.

Councilmember Morrison commented on the recent expenditures for furniture, phone voice system, and the customer service online access software. He expressed concerns that there are funds for these types of expenditures but not for a rebate. He again suggested City Council conduct a full audit of the Water Utilities department.

Responding to a question from Councilmember Silvas, Mr. Dane explained when establishing the 75-day fund balance goal, staff takes into consideration the number of days the city can survive with zero income and still pay for the operating costs (total budget / 365 days X 75 days = \$5.2Million). He stated unknown, emergency, or seasonality is taken into consideration thereby allowing the City to deal with unexpected expenditures. By resolution, he noted the City adopted a 75-day goal to accumulate a fund balance. Mr. Dane reported the standard is 90 days, but the City Council may adjust the number of days based on excess or positive fund experience.

Councilmember Alexander spoke in support of the various utility expenditures authorized by City Council to provide customers the tools for better improved customer service within the Water Utility Department.

DISCUSSION AND UPDATE ON CURRENT WATER SUPPLY

Water Utilities Director Ricky Dickson presented background information. He reported the current water level is at 18.2 months supply. Mr. Dickson noted unless the City receives substantial rainfall, we may lose approximately 1300 acre feet before going into Drought Stage Level II (DLII). He informed staff will present a resolution soon to City Council to activate DLII. Mr. Dickson also informed staff is transferring the water from Twin Buttes' south pool to the north pool. General discussion was held on holding the level within Lake Nasworthy.

Responding to a question from Councilmember Silvas, Mr. Dickson stated staff does not have a way to measure the water lost due to a major water break.

DISCUSSION OF LATE FEES ASSOCIATED WITH DELINQUENT WATER UTILITY STATEMENTS

Water Utilities Director Ricky Dickson presented background information.

General discussion was held on the 3- to 4- day time frame from reading the meter to the invoice going out to the customer, the 28-day invoice due date for a customer to pay their invoice, and accessing a late fee after the 3:00 p.m. due date time for a customer to pay their invoice.

Mr. Dickson explained the department has established the 3:00 p.m. deadline to coordinate the security service pick up of the monies; however, staff will work with the customer should they pay their utility bill after the deadline.

In conclusion, City Council felt the 28-day billing cycle was sufficient time to pay the invoice.

Responding to a question from Councilmember Silvas, Assistant City Manager/Chief Financial Officer Michael Dane explained a late fee is generated based on the balance after the 28th day on an account. In other words, if a balance exists on a particular date and on a date which is considered overdue, then a late balance is generated. However, staff is unable to generate a report of the number of late fees accessed since the system does not maintain a cumulative history and the calculated field is replaced and updated daily.

Mayor New spoke in opposition of a tiered late fee noting the cost to conduct the task is the same. He suggested a setting fee; noting the discussion should be centered on establishing an appropriate fee.

Responding to a question from Councilmember Silvas, City Manager Daniel Valenzuela noted late fees accessed on statement \$30 threshold or more, thereby assisting those customers with low or set incomes.

General discussion was held on previous discussions regarding they number of assessed late fees, the total amount collected in late fees, possibly consider a set percentage, and the late fees accessed by other utilities.

In conclusion, Mayor New suggested the City Council establish a committee to research the percentage fee concept, the impact of accessing the fee, and to present their finding at a future meeting.

Councilmember Morrison spoke in opposition of the \$25 late fee charge and supported a 10% set fee.

Public comments were made by Citizens Jim Turner, Jamil Tabor, and Bill Richardson.

UPDATE AND PRESENTATION ON BOARDS AND COMMISSIONS REGARDING ATTENDANCE, MEETING QUORUM ISSUES, RELATED MATTERS

City Clerk Alicia Ramirez and related Board Liaisons presented background information. Ms. Ramirez informed the Council the board meeting cancelations were mainly attributed to either board member's excused absence, lack of agenda items, or in some instances, the lack of a quorum. She suggested staff liaison consider conducting meetings quarterly or on an as needed bases as opposed to the monthly set meetings.

Mayor New suggested staff also consider when the meetings are scheduled or rescheduled and how to better coordinate the presentation of requested action on a particular item with the City Council meetings, specifically if a proponent is seeking approval to move forward with their project and such cancelations of the board or commission may cause an undue burden to the proponent's project timeline. Councilmember Hirschfeld concurred.

Responding to a question from Mayor New, Ms. Ramirez informed there have been no instances in which the full board was not able to meet as opposed to only a few members when obtaining a quorum of the board. She added she has been actively recruiting volunteers to serve on the various boards; however, the process has been unsuccessful. She noted she has been working with the Public Information Officer and has made several media presentations.

Councilmember Alexander spoke in support of and commented on the importance of the board and commission joint meetings with City Council so that such issues may be addressed.

Public comment was made by Citizen Jim Turner.

- Noise ordinance and enforcement of said ordinance
- Follow up / update on MedHab incentive project

Councilmember Hirschfeld announced he would not be in attendance for May 7th meeting. Mayor New suggested rescheduling the meeting for April 30th or May 14th.

Councilmember Hirschfeld commented on the recent board consolidation of the Design and Historic Review Commission and the result of the expanded the district. He noted the expansion of the districts have caused

issues for existing businesses. Mayor New suggested staff and the board should dissect the boundaries and determine whether the issue is related to either the river corridor or historic boundary. Assistant City Manager/Chief Financial Officer Michael Dane noted staff will also consider issues presented to staff.

Public comment was made by Citizen Jamil Tabor.
